Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.

Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.

C;Comment: Factor H has also been found bound to cell membranes in an unknown manner. Hc
C;Comment: Alternative transcipts of 4.3, 1.8, and 1.4 kilobases are expressed in liver.
